Education

MJR College of Engineering and Technology, Piler, Andhra Pradesh

Bachelor of Technology (B. Tech) in Computer Science

June 2020 - May 2024 **CGPA: 8.11**

SeethaRamaiah junior college

Intermediate Studies

June 2018 - May 2020 **CGPA: 7.5**

BSR Municipal Girls High School, , Andhra Pradesh

June 2017 – March 2018 **CGPA: 9.5**

Skills

- **Programming Languages:** Core Java, JDBC, Servlets
- **Web Technologies:** HTML, CSS, basic JavaScript
- **Databases:** SQL
- **Soft Skills:** Strong problem-solving abilities, Effective communication of technical challenges and solutions, patients and comittiment to work

Projects

➤ ANDROID MALWARE DETECTION USING MACHINE LEARNING

May 2024

Android malware detection using machine learning trains algorithms on features from benign and malicious apps. By identifying patterns and anomalies, these models enhance detection accuracy over traditional methods. Techniques like supervised learning and neural networks, leveraging large datasets, effectively recognize new threats, significantly boosting Android device security.

➤ AWS AUTO SCALING GROUPS

Implemented AWS Auto Scaling Groups to optimize resource utilization, ensuring a minimum of 1 instance and a maximum of 3 instances, enhancing application availability and cost efficiency Tools: Amazon Web Services

➤ CREATING AN S3 BUCKET

Created and managed an Amazon S3 bucket in AWS to securely store and manage data, ensuring efficient data storage and retrieval for cloud-based applications. • Tools: Amazon Web Services

Certifications

- Amazon Web Services from Immensphere Pvt Ltd.
- Front End Development from IBM Skill Build.
- Full Stack Java from SkillDzire.

Training / Courses

- Under going training for Full stack Java from Tap Academy,BTM Layout, Bangalore,Karnataka.
